Charming Witch

Materials

- Beige (main) color yarn – I used “Jeans” by YarnArt (55% cotton, 45% acrylic, 50g/160m) split in two strands. 1 skein should be enough. Jr take 2 if you don’t want to split it but in this case thickness of the yarn should be about 320m per 50g skein.
- Small amount of white color yarn for the eyes – I used “Nubuk” by Kartopu (22% acrylic, 78% polyamide, 100g/550m).

Tip: You can use any yarn that is suitable for the crochet hook 0.8-1.0 mm. If you use thicker yarn, the height of the toy will increase sufficiently. I do not recommend that you use the yarn thicker than mine. Make sure main yarn and the yarn for the eyes have approximately the same gauge.

- Matching crochet hook (I used 1.0 mm –UK 6 ½, US 12 – crochet hook for the yarn mentioned above).
- PVC single core copper electrical wire approximately 150 cm (59 inches) long 3 mm in diameter. Use only copper wire for the frame as copper can better stand bending compared to aluminum. You can buy it at electric supplies stores.

- Any stuffing.

About this pattern

The toy is crocheted in continuous spirals without joining the rounds. You will need a stitch marker to keep track of where the beginning of each round starts. Move the marker up to the first stitch of the next round after finishing the previous one.
If you don’t have a stitch marker you can always use a scrap of contrasting yarn instead. You can see it in my photos.

I use USA terminology for my pattern (don’t worry if you use UK terms, all the differences are explained in the pattern).

Finished size

Finished size approx. 38 cm (15 inches) tall using the yarn and crochet hook stated in the pattern.
✓ White polymer clay for the teeth.
✓ Sewing thread of matching colors for sewing small pieces.
✓ Tapestry needle for tightening and sewing needle.
✓ Wooden stick for stuffing hard-to-get places.
✓ **Tip:** If you don't have special sticks for stuffing, it is very convenient to stuff hard-to-get-to places using wooden sticks, toothpicks (if opening is very small), or brushes of different thickness with wooden handles.
✓ Plaster-adhesive-backed fabric tape 1 cm wide to work up the wire (the one you use to cover wounds).
✓ Glass or metal beads to add weight to the breast (optional).

**TIP:** You can use plastic pellets or glass beads from an unwanted toy you already have, or you can get an inexpensive one at a charity or thrift shop. Be sure that you can feel the beads inside the toy. You can also purchase new beads at a craft or hobby store.

✓ Wool for felting in white and grey colors for the hair.
✓ Wool for felting for the boots (optional – you can crochet them instead or sew them) - instructions are not given.
✓ A pair of glass eyes – I used 5-6 mm in diameter.
✓ Black fishing line for the eye lashes.
✓ Glasses for toys – I used 6.5 cm/2.6 inches wide and 2 cm/0.8 inches in diameter.
✓ Beads for the necklace.
✓ Keys, key chain for the bunch of keys.
✓ Transparent glue.
✓ An ear ring.
✓ Needle for felting.
✓ Fabric for the clothes:
  • a piece of check linen fabric for the upper skirt (I used 100cmx30cm);
  • a piece of bleached linen for the lower skirt and the blouse (I used 120cmx30cm);
  • natural color linen for the apron (10cmx21cm);
  • white elastic cotton fabric for the pants (10cmx32cm);
  • fur (20cmx10cm) for the vest;
✓ For finishing the clothes:
  • wavy edge linen lace for the lower skirt – 2.5 cm wide, approximately 100 cm;
  • picot edge linen lace for the blouse and the apron – 1 cm wide, approximately 100 cm
  • even edge linen lace for the placket of the blouse – 1.5-2 cm wide, approximately 10 cm;
  • beige bias tape for the belt of the apron – approximately 50 cm;
  • white elastic lace for the pants – 1.5 cm wide, approximately 50 cm;
  • white elastic for the belt of the skirt – 1 cm wide, approximately 20 cm;
  • beige round elastic for the blouse strings – 2 mm in diameter, approximately 50 cm.
✓ Decoration for the vest.

Tip (make it right)
If there are no special notes, the toy is crocheted under both parts of the loop. In some rows, there are special notes: 'into the front loop only' or 'into the back loop only'. In that case, you need to follow these instructions.

![Image of front and back loops](image)

And the backside looks like this:

Tip (make it right)
When making toys the right side looks like this:

Abbreviations
- ch(s) = chain(s)
- inc(s) = increasing(s) (2 sc in 1 st)
- double inc = double increasing (3 sc in 1 st)
- double dec = double decreasing (single crochet three together)
- st(s) = stitch(es)
- dec(s) = decreasing(s) (sc2tog)
- sc2tog = single crochet two stitches together
- sl st = slip stitch
- sc = single crochet
- dc = double crochet
- dc inc = 2 dc in one st
- rnd = round

If there is a record in the brackets in the pattern, multiplied by some number, for example (3 sc, 1 inc) x 3, it means you need to repeat this action 3 times, that is 3 sc, 1 inc, 3 sc, 1 inc, 3 sc, 1 inc.

TIP (yarn and wire)
If you use different yarn, the toy will be bigger or smaller and you will need more or less yarn and wire than stated in the pattern (i.e. thicker yarn will produce a larger toy and you may require more yarn and wire).

If you decide to use thicker yarn you should buy thicker wire as well. The thicker your yarn the taller the toy will be.

Tip (gauge)
When making toys, you should use a much smaller hook than recommended for the yarn you choose. Make sure you crochet tight enough; otherwise, the stuffing will show through the holes.

Skill levels
- **Beginner**: Projects for first-time crocheters using basic stitches. Minimal shaping.
- **Easy**: Projects using yarn with basic stitches, repetitive stitch patterns, simple color changes, and simple shaping and finishing.
- **Intermediate**: Projects using a variety of techniques, such as basic lace patterns or color patterns, mid-level shaping and finishing.
- **Experienced**: Projects with intricate stitch patterns, techniques and dimension, such as non-repeating patterns, multi-color techniques, fine threads, small hooks, detailed shaping and refined finishing.
NOTE!!!
If you decided to use much thicker yarn than recommended in the pattern (for example DK/8 ply and hook 3 mm) then the parts will twist more than needed. In this case you need to work Shift stitches. Since the pattern isn’t written for heavier yarn weight I can’t tell you where exactly you have to work shift stitches.

By default you don’t need to work shift stitches.

Shift stitch is an extra single crochet stitch (stitches) in the end of a round worked to move the beginning of next round one or few stitches further than the original beginning of next round.

If you use thicker yarn you will need to keep the marker going as in my pictures. If you notice that marker moves to the right more, you need to work an extra stitch (or stitches) in the end of round (shift stitch(es)). Place marker after that/those extra stitches. Shift stitch is not included in description of rounds.

All body parts are worked with main (beige) yarn and matching crochet hook (1.0 mm in my case).

Do not fasten off when finished each middle finger.

**Left hand and arm**

Continue crocheting in circle, joining fingers into a hand, starting from the middle finger as follows:

**Rnds 1.** 1 sc along middle finger (middle finger’s marker will be the marker of the hand and arm), 8 sc along the index finger (make sure incs and decs of the phalanges are on the upper part of the hand. See dots on the picture below), 4 sc along the middle finger, 4 sc along the ring finger, 8 sc along the little finger, 4 sc along the ring finger, 3 sc along the middle finger = 32 st

**Rnds 2-3.** 1 sc in each st around = 32 sts

**Rnd 4.** 9 sc, (1 inc, 1 sc) x 5, 1 inc, 6 sc, 1 dec, 2 sc, 1 dec = 36 sts

Please note that increases go along the palm.

**Rnd 5.** 2 sc, 1 dec, 32 sc = 35 sts

**Rnd 6.** 1 sc in each st around = 35 sts

**Rnd 7.** 6 sc, 10 dec, 9 sc = 25 sts

**Rnd 8.** 1 sc in each st around = 25 sts

**Rnd 9.** 5 sc, now join the thumb: put it with its right side facing the hand and work 7 sc hooking through sts of both the thumb and the hand (inserting the hook from the back side of the thumb starting from 7th st to 1st st), 13 sc = 25 sts

Cut wire for the wire frame of the hand and arm as follows.

**Option one (my way):**

Insert your wire into 1st finger and cut the wire by 0.5 cm longer than the finger itself. Do the same for the remaining fingers except for the middle finger. The wire frame for the middle finger is the wire frame for the arm which amounts to the length of the middle finger multiplied by 6 (5 cm x 6=30 cm in my case). Take the wire out of the hand, work up wire ends with fabric tape and insert the frame into fingers again. Stuff the joints only (incs at the middle of the fingers). Attach wire of the fingers to the wire of the middle finger using fabric tape. Note that the marker goes along the outer part of the hand.
Option two (suggested by Sabax during the test)

You can cut wire for fingers like on my picture and twist around main wire for the hand. Add some stuffing into the fingers first before inserting the wire.

*Rnd 10.* 4 sc, 1 double dec (the st of the hand + the worked 7th st of the thumb + 8th st of the thumb). You should notice that the opening (left after joining the thumb) is closed. Now work along the thumb: 7 sc, 1 double dec (the st of the thumb + the worked 1st st of the thumb + the st of the hand), 12 sc = 25 sts

*Rnd 11.* 8 sc, 1 dec, 15 sc = 24 sts

*Rnd 12.* 8 sc, 1 dec, 14 sc = 23 sts

Stuff the palm.

*Rnd 13.* 7 sc, 1 dec, 8 sc, 1 dec, 4 sc = 21 sts

*Rnd 14.* 8 sc, 4 dec, 5 sc = 17 sts

*Rnd 15.* 7 sc, 1 dec, 3 sc, 1 dec, 3 sc = 15 sts

Stuff the arm as you go.

*Rnd 44.* 12 sc, 1 double inc (biceps) = 15 sts

*Rnds 45-47.* 1 sc in each st around = 15 sts

Do not forget to stuff the arm as you go.

*Rnd 48.* 7 sc, 1 inc, 7 sc = 16 sts

*Rnds 49-58.* 1 sc in each st around = 16 sts

*Rnd 59.* 2 sc

Insert wire frame into the body.

Stuff the body and the legs tightly. You can put some weight into each breast (into the lower part only stuffing the upper part) to make it droop. The wire frame for my toy is 62 cm/24.4 inches. Bend the wire for the arms and hide it inside the body.

You don’t have to join wire frame for the arms and wire frame for the body.

Sew the eyelids onto the eyes using sewing thread of matching color.

**Teeth**

Make two teeth using white polymer clay. My measurements are 1x2 cm. I made a small hole in the upper part of each tooth to glue it more securely.

**Tightening for the head**

Thread your needle with yarn you worked the body with. Form the nose bridge making several horizontal stitches along the nose line (run the needle under the wire). Use pictures as a reference.
Sew six center sts of the upper lip onto the head 3 rounds down the line of the mouth. Sew the corners of the mouth leaving openings for gluing two teeth. Stuff the area under the nose and cheeks through the openings for the teeth.

Make tightening for the smile:

1. Insert your needle at the center of the right eye socket. Pull it out at the right corner of the mouth. Pull up the yarn and repeat the steps once again.

2. Make a couple of stitches from the right eye socket to the left eye socket pulling up the yarn.

3. Make a couple of stitches from the left eye socket to the left corner of the mouth.
Tighten the chin making a couple of stitches from the left eye socket to the center of the chin (5-7 rounds down the point of sewing the upper lip onto the head). You should end up with a deep fold on the chin. Make a couple of stitches from the center of the chin to the right eye socket to secure the fold.

Fasten off and weave in loose ends. Glue the teeth into the openings. Sew the ears onto the head.

Sew or glue the eyes onto the whites of the eyes.

Sew the eyes onto the head using sewing thread of matching color.

**Hair**

Take wool for felting in white and grey (small amount) colors.

Separate it into tresses and sew them onto the head covering all hair area and securing each tress at the center. Alternate grey and white tresses. Start sewing...
the hair 13 rounds up from the nose bridge.

**Finishing the face**

Cut 12 pieces of black fishing line of the same length. Fold it in half. Secure them at the edge of the eyelids the way you fasten fringe. Curl them if needed using scissors or any other tool.

Make eye brows using white wool and a needle for felting. Felt the eye brows onto the head.

**Belly**

Thread your tapestry needle with main color yarn. Tie a nice knot at the end. Insert the needle at the belly center and pull it out at the upper part of the bottom. Make a couple of stitches, fasten off and weave in loose ends.

The main part is done.
Sewing clothes

I used the following materials:

№1. a piece of check linen fabric for the upper skirt;
№2. a piece of bleached linen for the lower skirt and the blouse;
№3. a piece of natural color linen for the apron;
№4. white elastic cotton fabric for the pants;
№5. fur for the vest

Note: Use only fine fabric for the skirts.

You will also need:

№6. picot edge linen lace for the blouse and the apron;
№7. even edge linen lace – for the placket of the blouse;
№8. wavy edge linen lace for the lower skirt;
№9. white elastic lace for the pants;
№10. white elastic for the belt of the skirt;
№11. bias tape for the belt of the apron;
№12. beige round elastic for the blouse strings.

You can find patterns for the clothes in Appendix section. They are for the toy 38 cm/15 inches tall. Dotted lines are the folding lines. If your Witch is shorter or taller, you may need to reduce or enlarge the pattern to fit your toy’s measurements.

Measure the arm of your toy from the shoulder to the wrist. This length should be equal to the length of the sleeve in the pattern. Change the size of the picture on your screen so that the length of the sleeve amounts to the length you need and transfer the pattern right from the screen.

Try on all the pieces as you go.

All seams are 0.7-1 cm - it depends on your skills and the fabric you choose - the smaller the seam the better.

Making up

Skirt

• Cut a piece of cloth 20 x 70 cm for the upper skirt + a piece of cloth 9 x 38 cm for the belt.
• Cut a piece of cloth 90 x 20 cm for the lower skirt.
1. Fold a 1 cm hem along the lower edge of underskirt.
2. Pin the wavy edged linen lace to folded hem of underskirt. Sew to secure lace and hem.
3. Machine stitch along the upper edge of the underskirt. Recommended stitch length is 4 mm. Gather upper edge of underskirt to measure 38 cm.
4. Fold a 1 cm hem along the lower edge of top skirt. Sew.
5. Make folds along the upper edge of the top skirt, so that the edge measures 38 cm.
6. Sew the top and under skirts together along the gathered edge.
7. Fold the waistband in half lengthwise wrong sides together. Iron.
8. Put the belt to the inside of the skirt and stitch along the upper edge.
9. Fold the waistband over to the right side and stitch along the edge.
10. Insert elastic into the belt and gather it to fit the waist. Secure the edges.
11. Sew the back seam joining all layers of skirts. Finish raw edges.
**Apron**

Cut the apron (one piece with folding line – green lines in the pattern section).

1. Finish the bottom of the apron using any method you like (whipstitch, zigzag machine stitch, etc.).
2. Sew the lace for the apron along the edge. Make small folds in the lace when sewing around the corners to achieve a neat edge.
3. Make four folds along the upper part of the apron securing them with sewing pins. The width of the apron after making folds for the toy 38 cm tall measures 11 cm.
4. Sew the apron strings (bias binding – I used 55 cm of the binding) along the upper part of the apron.

**Blouse**

Measure around the bust line of the witch, add 4 cm (seam allowance and a little positive ease). This measurement should be equal to the total width of the back and front of the blouse, measured just under the arms. This can be checked against the paper pattern, which can be enlarged or reduced to fit the individual measurement before any fabric is cut.

Cut the blouse (one piece with folding lines – blue lines in the pattern section).

1. Finish the neck and the bottom of the sleeves.
2. Sew the front placket onto the blouse.
3. Sew the lace along the neck and sleeves.
4. Measure 2.5 cm (1 inch) from the sleeve edges and stitch using elastic thread to slightly gather the sleeve.
5. Sew the side seams.

6. Hem the bottom part of the blouse (I’ve hemmed the bottom twice: first 3 mm, then 5 mm).

7. Run round elastic into the picots of the lace and pull it up. Tie a knot.

**Pants**

Cut the pants (one piece – red lines in the pattern section).

1. Sew elastic lace onto the waistline and the bottom edges of the leg openings using zigzag stitch. Stretch the elastic out as you go to gather the piece.

2. Sew the back and crotch seams.

**Vest**

Cut the vest (one piece – brown lines in the pattern section).

1. Sew the shoulder seams. You don’t need to finish cut edges or seams.

2. Sew any decoration you like onto the vest.

**Kerchief**

Cut a right triangle out of a piece of check linen.

Size of my one is about 26 x 26 cm
1. Hem the longest edge and sew it along.
2. Fray the two shorter edges by gently pulling the threads away.

Accessories

Necklace
Thread elastic with any beads you like.

Felt boots using wool for felting (you can find a tutorial on the Internet).
Put the clothes and accessories on the Witch. You can put an ear ring into the ear. Put the glasses onto the Witch.

Your Witch is ready!

Attach a bunch of keys to the apron with a small pin.
